

Joining us on Sunday, October 18th  
during the Adult Education hour:

### **Cesar A. (Tony) Beltran Morales**

César Antonio (Tony) Beltran Morales is the first graduate of the Dominican Republic's Leadership Development Program, graduating with a degree in computer engineering from Central East University (Universidad Central del Este). At the age of 7, he began attending a local church's child development center through Compassion International and began a childhood-long development process that changed the course of his life.

Tony is currently pursuing his graduate studies at Moody Bible Institute in Chicago. He was one of three students to receive the Wess Stafford scholarship. With this degree he is planning to influence the teenagers of his country with the power of the gospel of Christ. He wants to let them know that there is hope in Jesus, and being under His control, they can fulfill anything they want. Like he usually says, "Poverty does not intimidate me anymore."
